HOLY CROSS GERMANTOWN HOSPITAL

The table below provides the historical range of charges for the most commonly used inpatient and outpatient services at Holy Cross Germantown Hospital, and the average charge for the service. This table is updated quarterly and is based on patient charges actually incurred for these services during the past three months and may be used by patients to estimate the charge for services that they may incur. The actual charges for services received may be higher or lower depending on the level of care provided, medical supplies used, pharmacy items administered, and other services provided to the patient. Please contact our Financial Counseling Office via email for assistance or for services not listed below at sshsfincounseling@holycrosshealth.org or at (301) 557-6195. The amounts below reflect hospital charges only. Holy Cross Germantown Hospital does not employ the physicians who practice at the hospital, and each physician group that provides service to you will charge you separately for their services. Please contact these physician groups directly for charge estimates (see Page 3).
